## Lite Rail

12 volt Metal Rail System  
Wall or Ceiling Mount

**Description:** A beautiful, 12 volt alternative to track lighting. Rail can be wall mounted, ceiling mounted or suspended.

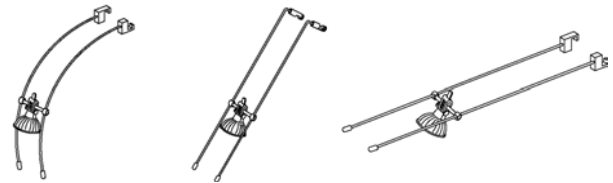

**Available Finishes:** Penny -01, Nickel -02, Brass -03, Matte Nickel -08

**Available Lengths:** Straight and “s” shape—1 meter, Corner—10”, Curved available to shape 2’, 4’, 6’ and 8’ diameter circles.

**Requirements:** Depends on type of installation—Ceiling supports, wall supports, rail connectors, end caps, or adaptors may be needed.

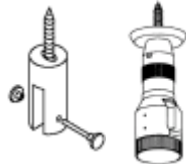

See individual fixture specifications for bulb and bulb supplement details

**Lite Rail** will support a variety of fixtures, including UniLite line and the fixtures shown here—Galleria, Trapeze and Swing.

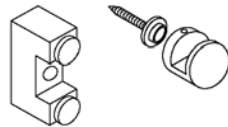

**Options / Accessories:** There are three different ways to mount LiteRail. It can be wall mounted, ceiling mounted or suspended by aircraft or BiLine cable, or by stems (shown below).
